Hi everyone, my name is Risa.

I'm a 4th grade student in school of Japanese and Japanese culture.

I'm working on creating a bilingual web service for foreign students which gathers information about clubs and activities at the University of Tsukuba.

Our website is called "TsukuRope" and it will be written in both Japanese and English. We collected basic activity information, pictures, and messages from senior foreign students.

This service will be released on early in November.

Now, let me give you some information of our meeting.

We are planning to have a meeting to communicate directly with foreign students and collect feedback and opinions on this service before we officially release.

The date will be on Sunday, October 30th at 3pm-around 5pm at tgc (Tsukuba Global Commons, Bldg.1A 2nd Floor).

Any foreign students can join us, so please contact us by e-mail or Facebook page if you are interested in and want to participate.

It would be nice if you bring your friends.

I hope everyone to take advantages of this website and get a chance to experience Japanese activities.

I'm looking forward to seeing you!
